First U. S. Space Flight Postponed; Shepard Is Picked

CAPE CANAVERAL, Fla., May 2 (UPI)—To Alan Bartlett Shepard, Jr., 37, chosen to be the first American to ride a rocket into space, life has been a series of challenges. Asked recently why he volunteered to be a "pioneer astronaut" Alan B. Shepard, Jr., for the hazardous mission, the navy commander said,

"I thought I had the challenge of a lifetime. I feel that the more difficult challenges will occur on the first flight. I signed up to accept this challenge."

Shepard once said that if Alan could find a challenge, he would create one.

He became impatient while taking a vacation and went to a familiar fishing spot to spare time to get his private license.

Shepard was asked what he used to do when he was 18. Later he started hunting for a boat that would pull fast enough to ski on the lake.

Shepard has challenges where other men might find only chores.

In his words, "It is always racing, racing, racing. I am the kind of admiral and general

"they should be read."

Other men his age drive sedans. Shepard drives a high-powered sports car fitted with racing tires.

The biggest challenge of his life came this morning when Shepard was tapped for the journey into space.

But it was a challenge he had

to prepare his muscular self. He has allowed himself to be jolted, jerked, spun, crushed, cracked and bent.

To prepare his genius-level mind—100 somewhere between 135 and 147—he has honed up on astrophysics, aerodynamics, fuels, guidance, navigation, meteorology, astrophysics and geography.

Asked if he now feels that he is ready, he recently said, "The answer is yes, I am ready."

Shepard comes of a military family. His father was a naval commander, his brother a naval aviator, and his wife is a nurse.

Shepard was born Nov. 18, 1923.

After early schooling in East Derry, Alan entered the Naval Academy in Annapolis and graduated in 1944.

After World War II he entered flight training, then became a flight test pilot, helped develop altitude missions, helped develop the navy's in-flight refueling system and contributed to research

Jobless Total Falls 533,000 During April

WASHINGTON, May 2 (UPI)—Employment fell by 533,000 in April to 4,630,000, the labor department reported yesterday.

Official said this was about the "seasonal" decline for this time of year.

Number of jobs held by Americans leaped up by 18,000 last month.

There was about 500,000 fewer than the normal April increase because of the seasonal decline in farm plantings and cut down the number of farm jobs, the department said.

Official explained that unemployment fell by more than the gain in employment because 315,000 workers left the labor force after April and did not seek jobs last month.

French Tanker Burns Off Brazil

RECIFE, Brazil, May 2 (UPI)—A French tanker loaded with aviation gasoline caught fire and is burning fiercely off the coast of Brazil, the French Consulate in Rio de Janeiro said yesterday.

The President, General Goulart, said it was feared the French ship would explode if flames reached its gasoline cargo.

The Brazilian ship had had

reduced 42 crewmen to 14 when it ran aground in the early morning.

Judge Slates July 18 for Damage Suit

(From Page One)
100,000-dollar damage suit costs. Scientists from throughout the U. S. will testify during the two-week trial, according to a Nelson source.

One man was arraigned for forgery and two other criminal cases were continued to the next term. The trial opened, the May term, on May 1.

Frank MacArthur pleaded guilty to forgery, which was a lesser charge than the one he appeared with his attorney, R. E. Rayborn. A trial will be set later in the court term.

The case of Maurice Kierstead on forgery was continued to the next term as was a disturbing the peace charge against Bill Dugan, 21, of Meridian. Both cases are in court.

The following non-jury cases will be set for trial in the court term, which begins May 6:

Ithaca Credit Service company versus **Louis Dilk, et al.** Dilk, 44, and his wife, 40, were shot and killed in their home on July 2, 1958. The company is represented by Robert N. Hallenbeck, while Rayborn, Rayborn and Webb and Webb & Dilk, 41, defend.

Helen M. Heaton versus Mr. and Mrs. Dean May, for \$1,000 damage to a car which was 2 days old when it was stolen. The car, owned by Mr. and Mrs. Delbert N. Bader, 31, will be held at 3 p.m. Thursday at the **Sunset Memorial Park**, 1015 W. Meridian, for the Twelfth Falls First Methodist church. The procession will leave White Mortuary at 2:45 p.m.

Wayne Dutton versus the United Oil company, for \$1,000.82, allegedly owed Dutton by the oil firm for services rendered. Dutton, who has been a gas station attendant for 20 years, sold the company products from May 23, 1958, to Oct. 7, 1959, according to the complaint. He is represented by Mr. and Mrs. L. E. B. Bader.

Twin Falls, represents the oil firm. J. I. Case Credit Corporation, versus Fred Jester and Roy E. Jester, doing business as Jester Equipment Company. The credit firm asks \$1,188 damages for unauthorized use of a case heat control unit in August 1958.

John E. Richards, Hage and Eberle law firm, while Rayborn, Rayborn and Webb, 41, defend.

TUCKER'S NATIONAL WHIRLIGIG

WASHINGTON—Although President Kennedy has assumed full responsibility for the anti-Castro plotters, he has not yet identified the individual or agency which ordered the poorly prepared and uncoordinated attack on Cuba. It is still a top secret in Washington.

Contrary to certain versions, Allen Dulles did not give his approval to the invasion, should attach to the CIA. Dulles says the report that his central intelligence agency, besides reporting on conditions in Cuba, also evaluated that finding of the CIA's "indefinite invasion." Dulles says he had no part in that decision.

In fact, he maintains that his intelligence data did not justify the assault, for it was not a total defeat. He does not plan to release his study of the paramilitary project.

WHO PUSHED BUTTON?—The unanswered question is: "In the face of Director Dulles' pessimistic briefing, who planned and facilities and personnel, and who in the face of the Dulles demurrry, ordered an attack that had no chance of success?"

Was it President Kennedy? Was it the national security council? Was it the joint chiefs of staff?

Was it Dean Rusk, secretary of state?

Despite bipartisan support of the administration and the opposition, the CIA capitalized on the prestige throughout the world, especially in Latin America, Asia and Africa. These quotations are being asked on capital hill and ever American worried over the possibility of war gather.

Now Postmaster General J. Edward Day announces plans to increase some special delivery and money order fees starting July 1 as part of a program to wipe out postal deficits. He doesn't plan to raise fees right now for first-class, special delivery mail but will do so for second, third and fourth class special delivery, in addition to increased rates for money orders. Day plans to increase postal revenue by some \$5 million dollars annually with the increases.

There is one school of thought that contends mail service doesn't necessarily have to pay its own way because it is something that is maintained by the federal government for the convenience and use of all citizens. Of course, any deficit accrued because of such beliefs has to be paid by tax money from someone. So it just makes good sense to finance postal operations from postal revenues, if possible.

Always in the past, attempts to raise sufficient funds to finance postal services have been sought through the route of increased fees. And the increases have never been quite enough to offset costs. In fact, the postal department has chalked up some whopping deficits even in the face of increased fees.

Why not take a long, hard look at some of the items being thrown through the mail as a means of reducing the volume, hence the reduced cost? Every mail patron receives a volume of so-called junk mail that he doesn't want and in most cases doesn't even bother to open. Waste baskets in postoffice lobbies are full of junk mail.

Here is an unnecessary volume of mail that adds materially to postal costs and is not always wanted by patrons. Perhaps it's time to change the rules to eliminate vast bulk mailings of junk material that winds up in waste baskets without being opened. Such mail is not only costly because it jams postal facilities, but it is a definite nuisance for the average citizen.

Instead of raising special delivery and money order fees, perhaps the postal department could start the junk mail situation drastically. In addition to reducing costs, the department would be performing a service that would bring cheers from everyone who ever sorted through a lot of junk mail for a newspaper, magazine and one or two personal letters.

MORE APATHY?

Perhaps everyone was just too busy, but only a relative handful of citizens turned out Sunday, to inspect a model radiation fallout shelter constructed by students at the Twin Falls high school shop department. There are several other reasons why people may have stayed away in such numbers. It could be people aren't convinced of the effectiveness of the necessity for such shelters. And there is always the possibility that people are convinced the horrible examples in Japan that ended World War II also ended the possibility of atomic warfare.

Or maybe the majority of people just can't be bothered with anything like that. Is this another example of the deep-seated apathy that has gripped this nation in recent years? If so, perhaps the next war has been won already. Maybe the people of this country are too complacent already to be involved in another war. We might just quit, instead, because that would be the easy way out.

But consider for a moment the headlines on the front page of Sunday's Times-News, the same edition which appeared final news of the radiation fallout shelter "hit play." "U.S. Troops Attacked By Congo Army," "President, Top Advisers Hold Urgent Session on Action in Laotian Crisis," "Rebels Launch Attack After Cease-Fire." "Proposed for Laos," "Marines Sail to Harbor in Eastern Cuba," "Tao Forces Estimated by U.S. Military."

This isn't intended to be alarmist in nature, but does all that sound like peace and quiet for the world? The weapons of war are taking their toll daily in several parts of the world. Perhaps this nation never will have to worry about attacks and bombings, but depending on such a future is a sure way of preparing a math for disaster.

If you know the neighborhood, bully is waiting around the next corner hoping to catch you unaware, you're either going to avoid the corner or carry a big club when you approach it.

It could be the high school shelter may be part of the big club. It will be on display again next Sunday.

DON'T GET IN LATHER.—A good dose of ridicule has been heaped on Mr. Meekin (Soapy) Williams, our assistant secretary of state for African affairs, for which he has paid and done as he tramped across Africa.

It's much we know! Soapy has come and gone in Michigan and once in Africa. And on this last out, the return just arrived in New York.

Cowboys Open Three-Game Series in Great Falls; Club Returns Here Friday

The Magic Valley Cowboys, literally blown out of town by a windstorm Monday night, will open a three-game series in Great Falls tonight with an eye toward improving their second-place standing in the Pioneer league. A sudden evening windstorm, which abated after assuring the club of no attendance at the game, blew out the final game of the Cowboys' series with the Boise Braves. It has been resched-

uled as a twin-night doubleheader May 31.

Sports
FROM ALL ANGLES
BY LARRY HOVEY.

The world of sports is intriguing and offers many surprises, and Pocatello's Dick Church, a 1949 Twin Falls high school graduate and the first in a line of Hurley Churchers, is still two years away from having a great story, something that always seems to happen to him.

Since graduation in 1949, Church, whose father, Larry (1902) was the state high hurdles champion and youngest brother, Gary (1947), a two-time state champ as an eighth grader, has kept himself in shape through running the hurdles, generally a hobby at his job as a busboy in the years in Philadelphia and joined the Pioneer AC while there. It was on the AC practice field his story began.

The Cowboys, who return here for a six-game start Sunday, Friday, appeared able to benefit from his experience. They had to give them a three-hour jump on the long trip to Great Falls. However, the electrical system of the bus had to be repaired in Twin Falls and the club had to return for repairs. The net result was less than an hour saved.

As they were lining up a stranger joined the group. "He was a tall Negro, skinny—almost a bag of bones, except he had hair in his hair and just generally looked like an old man," Church recalls. "He said 'He'd like to run with us.' We asked him if he could run with us and he said 'Yes.' We told him, 'Well, it's up to you,' figuring if he got hurt it was his own choice. He beat everybody else in the race and finished first. We finish him and watched the others and their form. Just zip and he was through," Church smiled. "When it was over, as I said, he was the winner. He was the winner. Bill (Hicks) was all he said," Church concluded.

For those of you who don't remember, he was the 1948 state high hurdles champion in 1948. He lost out in the 1952 hurdles trials but on the way off the trial field he was selected to run in the national trials in 1952. He won the Olympic medal and then won the Olympic medal six weeks later.

Dillard, Church, he kept in touch, running out at night and off days.

"I asked him how he could see the hurdles running at night since he had never run them in his life," Dillard answered. "I know pretty well where the hurdles are."

Usually any baseball discussion seems to turn to baseballs. And Bill Denney, former Magic Valley Cowboy, has one of the best 2004 baseballs in the country. It's a 1958 Lynn, a hard throwing little gem with the local franchise in 1958 but seldom able to win a game. Bill Denney, a baseball player and the slumber of the Bannocks had that year.

"They were bringing shovels up to the plate with them," Denney said. "They knew Pinky wasn't going to throw at them. They'd wait for his fast ones and knock it out of the park."

"I kept asking him to hit some. I kept up until three in the morning one time, begging him to bury one in someplace. He just said he'd play Pocatello, we all came up."

"Pinky knocked him down with the first pitch, then with the second, he said 'I'm not going to hit the third. Then he looked over at me and said 'should I do it again?'"

All-America Has Tuberculosis

ORLEAN, N. Y. May 2 (UPI)—All-American basketball star Tom Smith, hospital-sick since last week, has a pulmonary tuberculosis infection, a hospital spokesman said Monday.

Smith, who led the St. Bonaventure university basketball squad to a 24-1 record, was the first-round draft choice of the New York Knicks in the National Basketball Association.

The length of treatment depends on the course of the disease, but Smith, 21, said Monday, he said with Smith's condition probably would continue through the fall.

Jensen Claims He's Definitely Concluded Major League Career

OGDEN, May 2 (UPI)—Boston Red Sox outfielder Jackie Jensen said Monday night he was through playing baseball. "I've had it," he told a newsman. "I know when my reflexes are gone and I'm not going to be any 25th man on the ball club." This was the first word from Jensen on his sudden walkout—Jensen only six hits in the first 12 games. He took a midnight train out of Cleve-

land Saturday, without an official word to a anybody, and has stayed away from newsmen. He was en route to Reno, Nev., to join his wife, former Olympic diving champion Zeta Ann Olsen.

She said when she learned Jackie was headed home, "I think Jack feels he's hurting Boston's chances."

The Union Pacific railroad terminal City of San Francisco stopped in Ogden, for a few minutes. Sports writer Ensign Ritchie, Ogden Standard, boarded the train to Linton.

"I think I'll go to the Red Sox," he said. "I don't know if I can quit, but I have to."

In Kansas City, Red Sox Manager Mike Higgins awaited a call from Jensen. He said he hoped Jensen would accept more money.

"I think he's going to quit," Higgins said.

Listen quoted Jensen as saying, "I don't want to talk to him. You'll probably get a ball in the head. He's made at the world."

But Jackie had gone into the station. Ritchie walked up to him and asked, "What's the matter?"

"I think I'm going to quit," Jensen said. "I think I'm going to quit."

Listen quoted Jensen further: "I don't want to take owner Tom Yawkey's money. I want my \$50,000 (Estimated 1961 salary) \$50,000. I always returned dollar for dollar. Now I don't feel I can do that."

"I want one thing understood. I'm not quitting in the sense of the word. I'm not quitting this time, as I did last year, because of my family. I'm not quitting be-

cause I'm not getting paid enough," Listen said.

NEW YORK, May 2 (UPI)— Wheat
chip imports were up, and grain ex-
ports indicated a fairly
general market advance on rising
volume.

Improving business news was
credited with grain's gains especially
that responded to an 11-
month production record. Unem-
ployment was the number of jobholders
increased, it was reported.

Traders drew good support in the
wake of a court ruling banning a job freeze for ex-
employees derived from rail men.

Among the strong-up movers
were U.S. Steel, America,
Bristol Myers, Standard Oil,
Monsanto, Standard Oil,
American Sperry Rand, American Telephone,
Colgate, American Chile,
Westinghouse, Procter and Gam-
ble, General Foods and Ford.

The Dow-Jones industrial aver-
age scored a healthy gain with Al-
lied Chemical, one of the industrial
weak spots, up 1.10 to 1,160.25
yesterday's page.

Utilities managed to finish on
the upside overall. Consolidated
gas and electric power were
amongst the big fraction. Bal-
timore and Ohio and Norfolk and
Western were strong in the rails.

Brokers said the list is currently
in a "consolidation" phase.

Stocks on holding down prices
is the international situation. If
the latter can cool off a little, they
say, stocks should be more
attractive in the wake of
rising buyout indicators and the
list's own technical position.

Stocks on the big board
today totaled 4,110,000 compared to
3,710,000 in 1960.

In 1961 to date total 400,542,867.

Two silver arrows were awarded to Marvin Miller.

A scrap drive is being conducted by the boys.

Den five is the new honor den. Den five was in charge of the opening and closing flag ceremony.

Yard Short

NAPLES, Italy, May 2 (UPI)—Arrival of Queen Elizabeth II on the Italian mainland was delayed by a yard of red carpet.

The red carpet had been stretched across the pier to where officials had calculated the Queen's boat would dock.

The gangway fell one yard short. The carpet could not be moved because it had been nailed down.

Alids raced to the pier with a one-yard piece of carpet to fill the gap.

Services Held For D. W. Hall

BURLEY, May 2—Funeral services for David William Hall were held at First Presbyterian Church.

Joseph Payne Memorial Chapel with Bishop Ralph McCombs officiating.

Invocation was given by Glade Vining.

Readings were given by R. L. Whiting, Roy Hall and David J. Garner.

Prayers and the benediction were pronounced by Rev. James A. Hall, pastor.

A solo was sung by Rev. Fred Sally Bassford, and a solo by LaRae Crane with Paola Crane as accompanist.

Palbearers were nephews Al and Jim Glade, Whiting, Roy Hall, Gary Hall, Dale Jensen and Ray Jensen. Floral arrangements were under the direction of nieces Mrs. Whiting, Mrs. James Vining, Mrs. Hall, Mrs. James Malon, Doneta Jensen and Annette Jensen.

Last rites were held at the River'side cemetery, Heyburn, with Ray Whiting dedicating the grave.
